AUTHORITY: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to maintain PRA authorization for the MSHA Ventilation Plan and Main Fan Maintenance Record information collection. An underground mine usually presents a harsh and hostile working environment. Pursuant to statutory authority, the MSHA has issued regulations under which a mine operator is required to prepare a written plan of the mine ventilation system. The plan must be updated at least annually. Upon written request of the MSHA District Manager, the plan or revisions must be submitted to the MSHA for review and comment. In addition, the main ventilation fans for an underground mine must be maintained according to either manufacturers' recommendations or a written periodic schedule. Upon request of an authorized representative of the Secretary of Labor, this fan

maintenance schedule must be made available for review. The records help ensure compliance with the standard and may serve as a warning mechanism for possible ventilation problems before they occur. The MSHA codified the regulations at 30 CFR 57.8520 and -.8525. Federal Mine Safety and Health Act of 1977 section 103(h) authorizes this information collection. See 30 U.S.C. 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0016. The current approval is scheduled to expire on December 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on July 29, 2016 (81 FR 50022).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0016. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
